All Summer Blonde with Diamond Activation Technology™

Technique

Natural Base	Level 6 with scattered existing highlights (9 depth)
Combination Colour	Mix 1: 9.2 Infiniti Permanent + 9% Infiniti Developer Mix 2: Lite 'N' Up + 6% Infiniti Developer
Toner	Infiniti Toner - Sand + 3% Infiniti Developer

Method

Natural level 6 with scattered existing highlights (9 depth).

Create a natural looking beach blonde effect on tussled locks by diagonally placing radial foils in the hair. Divide head into 2 sections separating top (crest and above) from back section, then subdivide the back section into 2 parallel sections. Begin placement at the nape alternating mix 1 and 2 (from table above), diagonally slice from left to right. Move onto above section starting at the centre (back) of the head, place foil slices diagonally moving towards the hairline on the left side, come back to the centre of the head and repeat process on right side moving towards hairline.

Mix fresh batch of mix 1 and 2 and apply diagonal slices in foil to the top section of hair following the curve of the head (radial). Develop for 30 minutes and rinse, mix and apply Infiniti Sand Toner to blend entire look, process visually for up to 10 minutes.

Styling

Spritz hair with White Ice Replenish for moisture replacement and UV protection, then apply a liberal amount of FDC for soft natural hold. Tussle the hair dry and finish with a curling wand for large beachy waves.
